# 155 FROBISHER

## An investment that **WORKS** for you.

You've realized the potential of owning your own business, now realize the potential in owning your own office space. Discover the many reasons why buying office space at 155 Frobisher offers the potential of serving as a reliable and secure investment vehicle.

### CONTROL

Unlike with leasing, when you own, you can tailor your space to your business. Any renovations made will only add value to your commercial asset over time.

### EQUITY AND APPRECIATION

Owning provides you with a secure real-estate investment that will accrue equity and appreciate in value. This equity can be used as collateral to expand or re-invest in your business, or aide in your future retirement goals.

### FIXED COSTS

Locking in your commercial mortgage long-term can give your business clear, fixed costs without the worry of unexpected rent increases.

### TAX BENEFITS

Ownership allows you to depreciate your unit over the life of the asset. This can save money when calculating taxes and earnings. Owning can offer additional tax deductions such as mortgage interest and property taxes.

### INCOME POTENTIAL

If a portion of your space is rented out, added income can be used to pay down the mortgage on the property or fund other business objectives.

### INVEST IN YOUR KEY TO SUCCESS

Take control of your business and your future. With commercial office ownership you can tailor your space to your unique business brand and operational needs.
